ITRMC Presentation

Oct 2, 2009 – Brady Kraft
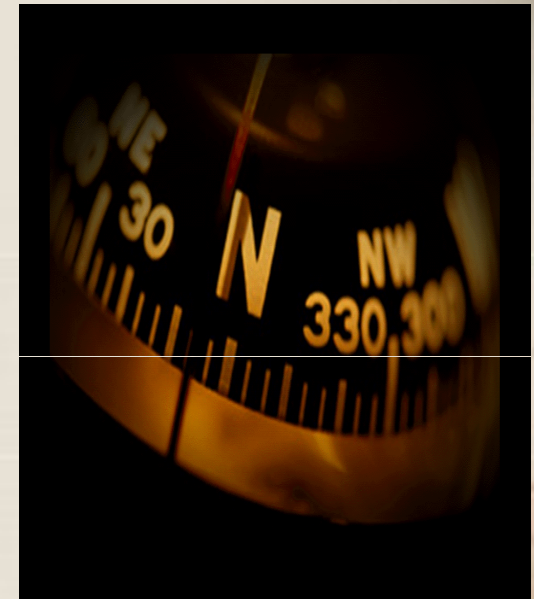

Course

The "Idaho Education Network" (IEN) is an open collaborative effort between the Idaho Department of Administration, Department of Education, Educational Networks of America and Qwest to construct and manage a statewide education network dedicated to the empowerment of all Idaho Citizens to

Connect->Instruct->Achieve

IDAHO

Department *of* Administration

Implementation Overview

- **Bandwidth: The IEN will connect all state public high schools with scalable, high-bandwidth connections, including connections to higher education institutions, the Idaho Digital Learning Academy and the Internet.**

- **E-rate: The IEN will compile and submit a statewide consolidated e-rate application for all IEN supported and e-rate eligible bandwidth.**

- **Video Teleconferencing (VTC): The IEN will establish video teleconferencing capabilities in every Idaho High School**
